Roseburg	10/21/08	Douglas County Fairgrounds Pacific Hall	10:00-7:00

No walk-in flu shots will be offered to the general public at the County Health Department facilities until after public clinics are completed in October.

Flu shots are \$30.00. Pneumonia shots are \$45.00. Medicare Part B, Medicare Part B Managed Care, Pacific Source, and Oregon Health Plan will be accepted.

Children ages 6 months through 18 years of age may qualify for a flu shot for \$15.00 if they are on Oregon Health Plan, have no insurance, are American Indian/Alaskan native, are unable to afford co-pays and deductibles, or their insurance does not cover flu shots.

There are new national recommendations that flu vaccine be administered annually to all children aged 5--18 years and that annual vaccination of all children aged 6 months through 4 years (59 months) continue to be a primary focus of vaccination efforts because these children are at higher risk for influenza complications compared with older children.
