**of the WILLAMETTE MERIDIAN**  
**DOUGLAS COUNTY, OREGON**  
October 22, 2015

NARRATIVE:

The purpose of this survey was to establish the common boundaries between the Weekly and Packham properties as shown and show the relation of the fencing and roadways along the common boundaries. Record documentation and physical evidence found and held in the field was used to establish the surveyed subdivision of the Northwest Quarter of the Northwest Quarter of Section 18, Township 28 South, Range 4 West of the Willamette Meridian, Douglas County, Oregon.

The USBLM Survey for the "Subdivision of Section 18, Township 28 South, Range 4 West of the Willamette Meridian, Oregon", dated September 18, 1992 and accepted by the USBLM was used as the "Basis of Bearings" for this survey. Record information, as documented, for the monuments in the PLSS Records for Douglas County, Oregon and the USBLM were used to verify the existing monumentation found in the field. The quarter corner for Sec.7/Sec.18 and the section corner for Sec.7/Sec.18/Sec.13/Sec.12 were found per record and used to proportion the West Sixteenth corner on the section line of Sec.7/Sec.18 based on record measurement. The center quarter corner of Sec.18 and the quarter corner for Sec.13/Sec.18 were used to calculate the proportional Center West Sixteenth corner based on the 1992 USBLM Survey for the "Subdivision of Section 18". The quarter corner for Sec.13/Sec.18 and the section corner for Sec.7/Sec.18/Sec.13/Sec.12 were used to calculate the North Sixteenth corner for Sec.13/Sec.18. The monument found at the Center North Sixteenth corner for Northwest Quarter of Sec.18 was held based on the 1992 USBLM survey and record documentation. Intersecting lines were used to calculate and establish the position of the Northwest Sixteenth corner for the Northwest Quarter of Sec.18.

This survey was performed by George Marcus Brittain PLS and Roney Ware (PLS -retired) using a Geodimeter 650 Robotic Total Station and a Spectra Epoch RTK GPS System with data collector.
