Tax Relief that might help businesses during the COVID-19 crisis

Employee Retention Tax Credit
The CARES Act creates a refundable payroll tax credit for businesses, large and small, that retain their employees during the COVID-19 crisis.

- Employers are eligible if they have been fully or partially suspended as a result of a government order, or they experience a 50% reduction in quarterly receipts as a result of the crisis.
- Employers with 100 or fewer full-time employees, they may claim a credit for wages paid to all of their employees, up to $10,000 a person.
- Employers with more than 100 employees, they may claim a credit for those employees who are furloughed or face reduced hours as a result of the employer’s closure or economic hardship.
- The Department of the Treasury is authorized to advance payment of the employee retention tax credit.
- This tax credit is not available if the employer takes an SBA paycheck protection loan.
- For more information: https://www.irs.gov/coronavirus

Corporate Tax Relief
The CARES Act allows employers to delay paying the employer-portion of payroll taxes through the end of 2020.

- The deferred amount is due in two installments—50 percent is due before December 31, 2021, and the other 50 percent is due before December 31, 2022.
- Deferral is not available if the employer takes an SBA paycheck protection loan.
- For more information: https://www.irs.gov/coronavirus

CARES Act Corporate Tax Relief Measures
In addition to the Employee Retention Tax Credit and Corporate Tax Relief, here are additional measures to help businesses.

- Advance Payment of Tax Credits for Paid Leave
  - Allows the Treasury to send advance payments of tax credits available to employers that are required to provide up to 12 weeks of coronavirus-related paid leave to their employees.
- Expanded Net Operating Losses
  - Expands the use of net operating losses (NOLs) by modifying restrictions put in place by the Tax Cuts and Jobs Act of 2017 (TCJA) (P.L. 115-97). The TCJA limited net operating losses (NOLs) arising after 2017 to 80 percent of taxable income and eliminated the ability to carry NOLs back to prior taxable years.
- NOL Carrybacks
  - Modifies the treatment of NOL carrybacks.
- NOL Carryforward
  - Modifies the treatment of NOL carryforwards.
- Modification of Limitation on Losses for Taxpayers other than Corporations
  - Retroactively turns off the excess active business loss limitation rule implemented with the TCJA by amending the provision to apply to tax years beginning after December 31, 2020
COVID-19 Assistance Resources
